

Culture Fair

at Brownsburg East and Middle Schools

Sponsored in part by

Students impacted: 3,000 | Subject: Cross-curricular

As BCSC becomes a more diverse place to learn, clubs such as Junior Leaders of Tomorrow (JLOT) and Young Leaders of Tomorrow (YLOT) offer students a chance to discuss among each other the unique qualities that individuals bring, but also the commonalities that bring them together. The target population is all students so that they can raise their awareness of the diverse world around them. In addition to smaller events at each school during the school day, this grant provided a larger combined Culture Fair in the evening where parents and students from both middle schools as well as community members could attend.
