

# Culture Fair

## at Brownsburg High School

*Sponsored in part by*  STATE BANK

**Students impacted: 2,000+ | Subject: Cross-curricular**

This grant provided materials for students to make displays for a Culture Fair that was presented to all students at Brownsburg High School. BCSC students learned about diverse cultures represented at their school and around the world through these displays and demonstrations. Not only will this strengthen the character trait of acceptance, but it will help students recognize, appreciate and celebrate differences in others. Students created presentation boards with various materials to educate and present to their peers about their chosen culture. Through the Culture Fair, all students are positively impacted by learning from their peers.
