

## **The Metamorphosis at BHS Door 1:**

**In 2012, a class began a plan for a veterans' memorial. The History Club kept the vision with School Corporation and American Legion meetings finally receiving location permission as well as new ideas and financial support. The BEF made the memorial's installation and dedication possible for Veteran's Day 2013. Students planned the dedication with VIPs such as Senator Donnelly, a World War II veteran and other VIPs. Past students involved as well as current students and the Brownsburg community are able to daily enjoy the monument as they pass the school.**

**A permanent legacy that honors students, staff and veterans!**
