

Adora-Bull Dog Signs

at Brownsburg High School

Sponsored in part by  STATE BANK

Students impacted: 120 | Subject: FACS – Principles of Interior Design

Students in Mrs. Kerri Patterson's Principles of Interior Design class have the opportunity to exhibit the concepts and skills they have learned in class through the funding of this BEF grant. Using Cricut machines that were previously funded by BEF and other materials purchased with this grant, students create Brownsburg Bulldog inspired vertical style welcome signs. They use their creativity as they make designs and sayings, and also as they contribute other ideas toward the project. The students are also creative and innovative as they create a plan to market the signs along with sharing ideas as to what charity their profits will go towards.
