"It is truly inspiring to know that the employees of the Brownsburg Community School Corporation have chosen to invest in the futures of students like me. Your generosity not only eases the financial burden of my education but also inspires me to work harder and give back to this wonderful community that has given me so much."

This grateful graduate received one of **19 scholarships** that BCSC employees sponsored for the Class of 2026 through the Payroll Deduction Program. **Thank you** for making a difference for so many students both as dedicated staff who shape their futures and as generous scholarship donors who help make their dreams possible. **As we are going into another school year, please consider how you can begin, continue, or increase your support for the next generation of graduates.**

Whether you're continuing your support or joining for the first time, your payroll deduction can support:

- **Scholarships** for graduating seniors
- **Grants** that enhance classroom experiences and support staff throughout our district
- **Both programs equally** to maximize your impact

Many employees are discovering that grants provide immediate benefits to students and teachers right here in our schools - including potentially your own classroom or building - funding innovative projects and resources that enhance learning every day.
