

Scanner Pens for Success

at the Crossroads Elementary School

Sponsored in part by **SUMMERS™**
Plumbing, Heating, & Cooling

This BEF InCredible Award Grant provides students with dyslexia and other reading disabilities a tool that reads text aloud, promoting independence and access to the general education curriculum without relying on staff support. Piloted at Crossroads Elementary, the program is designed to scale across all BCSC schools. This grant directly increases academic achievement by allowing students to access and comprehend text at a level they could not reach independently.
